HILVERSUM,

10 FEB. 1965

Dear Sirs,

In reply to your request we are glad to give you some information concerning Radio Veronica.

Our radiostation broadcasts aboard a ship in the Northsea, some 6 miles off the Dutch coast.

Radio Veronica transmits on a frequency of 192 meters (1563 kc). Our programs run from 07.00 (dutch time) in the morning until 01.00 (dutch time) in the night.

All programs are recorded on tape in our studio located in Hilversum. Here about 25 people are employed as disc-jockeys, programmers, sound technicians and administrative personal.

The tapes are transported to the radioship by "shuttle boat". Here they are played for broadcast.

About the transmitter:

type: self-made.
output: 5 Kwatt = 5000 Watts.
modulation: screen-grid.

Antenna: T-type.
double thread.
length: 48 feet (2 x 24 feet).
height: 66 feet.

Radio Veronica C.V.

HILVERSUM, den 23. Dezember 1964

Mr. E.R. Cooper,
National Radio Club,
438. East 21st street,
Brooklyn, New York-11226.
U.S.A.

Dear Sir,

In reply to your request we inform you, that we have to reprint our "QSL" Cards. This will surely take some weeks and we beg to have patience till that time. Then we will send you immediately your card. Please excuse the delay. We put out with 5kW. Radio Veronica put out from 7 o'clock in the morning till 1 o'clock at night.

Enclosed we send you a photo of our ship.

We wish you and your family a merry christmas and a happy New Year.

RADIO VERONICA C.V.
