

February 15, 1993

Dear Mr. COOPER :

This is to verify your reception of WANM Radio in Tallahassee, FL.

TESTING DATE: 2/06/93 TESTING TIMES: 12:00 A.M. - 12:50 A.M.

WANM is one of five A.M. stations in Tallahassee, and uses a format of CNN Headline News. WANM operates seven days a week as a daytime only station. The test transmitted consisted of voice I.D.'s saying, "1070 A.M., WANM TALLAHASSEE", and morse code I.D.'s saying, "WANM WANM WANM TESTING ON 1070 KHZ DE WANM WANM WANM." These I.D.'s were intermixed in a continuous loop that lasted about two and a half minutes, at which time it began all over again.

TRANSMITTER: C.S.I. T-10  
POWER: 10,000 WATTS  
FREQUENCY: 1070 KHZ  
ANTENNA: 1 TOWER / NON-DIRECTIONAL

Enclosed is a bumper sticker, and my card. If you have any further comments please feel free to call me. I can be reached at WANM - AM at (904) 222-1070 or at WGLF - FM at (904) 878-1104. Thank you for your report.

Sincerely,

Charles Kinney  
Chief Engineer WGLF / WANM
