November 1. 1950

Mr. Ernest R. Cooper
438 East 21 Street,
Brooklyn 26,
New York,

Dear Mr. Cooper;

This a verification of your DX report of our Equipment tests on July 30, 1950.

I regret that I could not reply sooner than this but things have just settled into a routine and just didn't have the time to answer, so I hope you will forgive me.

Our equipment is a Western Electric 250 watt transmitter and Gates audio Equipment. Our antenna is .3 wave vertical series fed and the usual broadcast ground system.

Thank you very much for your report and if you hear our station again we hope to hear from you.

Sincerely,

Broward Broadcasting Co.

John D. Miller
