Dear Earnest,

Yes, it's us!!

We have recently changed formats from an "Oldies Station" to News/Talk, hence "Newstalk 1550" in our ID. We are on a satellite network and need a piece of equipment yet so we can personalize our station at night more. In the daytime someone is there to run the board, but at night it is all automated. We are 1000 watts day and 83 watts night.

We get quite a few letters from radio club members up your way. I guess we get quite a skip on some nights.

Enclosed is a coverage map.

Thank you for writing and happy listening!

Debbie Belz
