

10,000 WATTS -- DAY AND NIGHT -- 710 K.C.

March 20, 1943

Mr. Ernest R. Cooper
438 East 21st Street
Brooklyn, New York

Dear Mr. Cooper:

Thank you for your letter of March 10th. I am sorry that you failed to receive a verification report last year when you tuned to WFTL on 1400 kilocycles.

We were testing on 710 KC with our new power on the morning of March 9th, 1943. We are broadcasting on both transmitters at the present time - 10,000 watts on 710 KC and 250 watts on 1400 KC.

Sincerely,

S. A. Vetter
