Apalachicola Valley, The  
Land of Opportunity*

April 26, 1963

Mr. Ernest R. Cooper, Editor  
NATIONAL RADIO CLUB  
438 East 21st. Street  
Brooklyn 26, NEW YORK

Dear Mr. Cooper:

We are pleased to verify your reception report of 17 APRIL 63.  
Our station was operation as you reported.

We have received many reception reports for the New England area,  
just wish we could get out that way during our regular operating  
hours(hi).

Our main problem with reception reports is the fact that we are  
understaffed, but we are pleased to receive these reports and  
try to answer them all.

We are forwarding your letter to the CALHOUN COUNTY CHAMBER OF  
COMMERCE for the information you requested. Blountstown was  
named for an Indian named Blount who lived in this area, but  
I don't know of any connection with the one you mentioned.

At the present we don't have any coverage maps available, but  
we hope to in the near future.

Here's a tip you might be interested in: WJOE radio in Port  
St. Joe, Fla., is increasing power to 1000 watts, on 1080 kcs.  
You might listen for their frequency checks. I don't know the  
schedule for them.

Thanks again for you excellent report.

Sincerely yours,

*John H. Burgess*  
John H. Burgess,  
Program Director

Johnny Charles Whitehead  
Chief Engineer

*P.S. Could you send me into on NRC?*
