Dear Mr. Cooper:

This letter will confirm your reception report of WLQY on April 20, 1981.

I regret that your letter of October 25, 1980 was not answered but it never crossed my desk and I try to answer all QSL requests promptly.

You mentioned that you use an R390 receiver by Motorola. I have an R390 made by Collins and my Chief Engineer has one by Electronics Assistance Corp. They are grand receivers, I use mine mainly for shortwave listening and teletype reception. I have a long wire which I string across the floor of my apartment (much to my wife's dismay) and roll up when I'm through. I have considered making a loop but just never gotten around to it.

Regards,
