National Radio Club
438 E. 21st St.,
Brooklyn 26, New York

Dear Mr. Cooper:

Thank you for your very nice letter of Jan. 26th. You surely may have heard us for we are a day-light station of 1000 watts on 1580 kilocycles. At the present time we sign off at 6:15 P.M. so what you probably did hear early on January 25th were our engineers working, a regular test.

WMDF ownership and management changed on November 31st to the present. You were right also in thinking that the call letters reverted, because the new owners desired to use the WMDF lettering. The MDF to us signifying Mount Dora, Florida.

Thanking you again for your nice long letter,

Very truly yours,
Radio Station WMDF
