Rounsaville Radio

November 10, 1975

Ernest R. Cooper
5 Anthony Street
Provincetown, Mass 02657

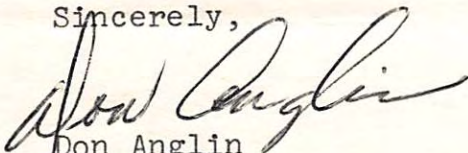

Dear Mr. Cooper:

Thank you for your report on receiving WNBE from 2:21 to 2:36 AM on November 3, 1975. Program detail in your letter agree with station operations for that time.

The call letters of WBJW in Winter Park, Florida were changed to WNBE on June 18, 1975 when we became an affiliate of NBC's News and Information Service (NIS) and became the "All News" station for Central Florida. WNBE operates on 1440 KHz with 5KW non-directional in the daytime, and 1KW directional to the east and west at night.

Again, thanks for your reception report and your interest in radio.

Sincerely,

Don Anglin
Chief Engineer
