Mr. Ernest R. Cooper
438 East Twenty-first Street
Brooklyn 26, New York

Dear Mr. Cooper:

First, may I apologize for the delay in answering your DX report, but the Holiday rush has had us all running around like mad.

I'm happy to report that your DX report coincides completely with our log. I found your report very interesting and informative.

WNUE, formerly WFBS, has studios and transmitter located on Race Track Road in Fort Walton Beach. We are approximately 500 yards from the beautiful white sands of the FLORIDA COAST.

WNUE programs the Top 50 tunes of the Playground Area as compiled by our surveys. We use a GATES 1kw xmitter.

May I take time again, Ernest, to thank you for your DX report. I hope you are able to log us again soon. If there should be anything else you'd like to know about "NEW" Radio, just drop me a line. I promise I'll not be so late answering you next time.

Your Broadcastin' Buddy,

JERK
Jerome G. Tisdale
Chief Engineer
