April 22, 1957

Dear Mr. Cooper,

I am very pleased to verify your reception report of
 April 15, 1957.

We have a 5000 watt RCA transmitter which is 18 months old.
 We are very pleased with it and it's performance. The station
 operates with 5000 watts daytime and 1000 watts directional night.
 WTMC went on the air in 1939 with 100 watts, and has grown till
 it is now 5000 watts. The call letters do not signify anything.
 We are affiliated with the National Broadcasting Company and
 radio stations WJHP*AM-FM-TV, Jacksonville; WCOA, Pensacola;
 WDLP, Panama City; partial interest in WNDB, Daytona Beach, and
 our latest affiliation is WESH-TV. We were not directional
 for the special broadcast. I have inclosed a printed map of
 our daytime coverage and sketched in nighttime pattern.

-2-

I do not know the population of City of Ocala, but the population of Marion County is 45,000. Ocala is one mile square.

We cover seven counties in our .5 MV/M and nineteen counties in our .1 MV/M area. You may write the station for any information I am unable to supply here.

Sincerely,

James H. Bailey, Jr.
