BLUE

April 1st, 1946

Mr. Ernest R. Cooper
438 East 21st Street,
Brooklyn 26, N. Y.

Dear Mr. Cooper:

Thank you for your report on reception of WWPG during the NRC DX program 3:30-4:30 AM, March 26th, 1946.

All identification information you have submitted is accurate as compared with our log and we are pleased to verify your reception of this program.

Although this was my first DX program, and I didn't know just what you fellows like, it was a pleasure to put on the program and to hear from you and all the others who have responded to date. So far, 19 reports have been received, and perhaps more will be coming in.

It was a peculiar night. Most reports mention Aurora Borealis, and as the newspapers and radio commentators remarked about sun-spots at that time, it is evident that reception conditions were not normal.

A list of reporters will be forwarded to you in a week or ten days, when a more complete list will be available.

Yours very truly,

Clyde L. Walkden

Clyde L. Walkden,
Chief Engineer
