Provincetown, MA 02657

Dear Mr. Cooper:

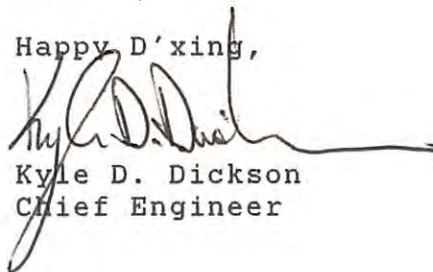

Congratulations on your reception of WZNZ AM, broadcasting from Jacksonville, Florida. I have confirmed the description of your reception on October 26, 1993 at 2:31 AM-3:00:15 with the Program Director, Van Page.

You may be interested to know that WZNZ AM is one of five stations being operated by Paxson Broadcasting and Todd Communications all housed in one complex. We have three FM's, WROO 107.3 MHZ, WAIA 93.3 MHZ and WSTF 97.9 MHZ and two AM's, one of which you received, the other AM is WNZS 930 KHZ.

Now to answer a few questions you may have about WZNZ. We transmit with an output power of 5 Kilowatts in an omni-directional pattern during the day using a 170 foot tower. At night, we go directional with no reduction in power using three 170 foot towers. We're using a Continental 315R-1 transmitter. We program a news format 24 hours a day with most programming coming from CNN Headline News, at times we broadcast various ball games.

I hope this letter satisfies your request and hope you'll be able to receive us again or one of our other stations. Enclosed please find a coverage map of WZNZ. Thank you for writing.

Happy D'xing,

Kyle D. Dickson
Chief Engineer
