Dear Mr. Cooper:

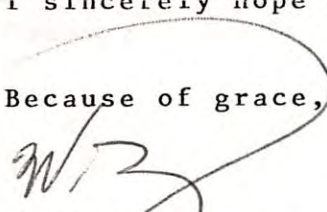

I regret taking so long to respond to your letter, however we have had quite a changeover in personnel and I am just getting around to a response.

Needless to say, I was elated that you could pick our station up from such a distance. I do indeed verify all that you heard on that early October morning. Since that time we have really boosted our power and upgraded so much of our equipment, so I am hoping that you will not only hear us again in the future, but much clearer and perhaps for longer periods of time.

Thank you so kindly for taking the time to let us know that you were able to hear WIZA AM 1450 and also for your patience in waiting for my response.

I sincerely hope that I will hear from you again soon.

Because of grace, I am
