Dear Mr. Cooper,

Sorry to have delayed in answering your letter concerning the reception of radio station WMES, but I guess I have more to do than anybody. Hi!

I wish to confirm your reception of radio station WMES because it was about that time that the station was making its preliminary testing before going on the air officially on schedule.

Just for information the station now makes its frequency measurement tests on the ~~first~~ Tuesday morning of each month from 0100 to 0130 am.  
third

Guess this about wraps up all of the information from this end of the line and thanks for the fine report.

Y ours Truly,
