Dear Mr. Cooper:

This is to verify your reception of WQXI on October 12, 1949 at 5:15 to 5:37am.

WQXI is now operating on 5 KW and both studios and transmitter are located in the suburban area of Buckhead at Atlanta. Buckhead, Georgia, is a city in southern Georgia and we have a good deal of mail etc. that is sent there and has to be re-routed.

Thank you for your report of reception, and best of luck in all future DX's!

Very truly yours,

Harold G. Price
