Dear Sir:-

This will confirm receipt of your letter of 11 January 1951 reporting reception of this radio station. Upon checking with our program department I am pleased to advise you that your reception was correct and hereby verify it as being so.

Our normal air day runs from 6 a.m. to 11 p.m. Hawaiian Standard Time and our frequency checks done by R. C. A. at Bolinas, Calif. are done during normal operational periods. Sometime within the next month, following moving our studios from downtown to the transmitter site I intend to run an all night check and will plan it for some weekend, either Friday or Saturday nite. If you would be interested in notification of time pls let me know.

Thanks again for your fine report.

Very truly yours,

  
Charles Deans Calley, Jr.,  
Chief Engineer.
