February 28, 1950

Mr. Ernest R. Cooper
438 East 21 st Street
Brooklyn 26, New York

Dear Mr. Cooper:

This letter is in reply to your correspondence of January 11, concerning our test period.... We wish to thank you for your DX, and we would like to VERIFY it for you at this time. Sorry We are a little slow in answering you but seems something always turns up, whenever I start to answer the DX mail.

KWBG is a daytime station, with plans pending for night time operation. KWBG started a regular broadcast schedule on Sunday, January 15, 1950. We are, so to speak a General Electric station, as our xmitter, console, remote amplifiers, etc., are all of the G.E. make. Our tower is ~~a~~ one tower, 185 feet high.... the transmitter is located about three miles south of Boone, Iowa. We received DX reports from your state, New Jersey, Ohio, Michigan, Iowa, Tenn., Illinois, Penn, Mass, Idaho, Washington, etc, most of than were from the east of us though.....

Thanking you again for your correspondence.....

Yours truly
Verne Hoesky
