Mr. Ernest Cooper
438 East 21st. Street
Brooklyn, New York 11226

Dear Mr. Cooper:

Thank you for your DX report. W A K E is a standard AM broadcast station-commercial-daytime operation-directional pattern-1000 watts output.

The purpose of the early morning test that you heard was to trace the source of cross-talk from our AM into our FM station. The male quartet is the Hopewell Quartet from Kouts, Indiana about 10 miles south of Valparaiso. As a Christian I enjoy their music very much and I do hope that it was an inspiration to you and anyone else that might have been listening.

You might be interested to know that I also received a DX report from Nutley, New Jersey as a result of this same test.

Enclosed is a WAKE QSL card, WAKE coverage map, and a WAKE brochure that you might find interesting.

Sincerely yours,

W A K E AM & FM

Wm. E. Newbrough
