ANDERSON, INDIANA

OPERATORS OF
RADIO STATION WHBU

February 19, 1947

Mr. Ernest Cooper
Brooklyn, New York

Dear Mr. Cooper:

Thank you very much for your very nice letter, and I wish to apologize for answering it before, but for some unknown reason the letter was misplaced and I just found it yesterday.

You may consider this as a verification of your report on January 11, 1947, as our log shows that you are correct in your report of reception. We are also glad to hear that you received us so well in New York at that time of night.

We have been on the air here for nearly 25 years, and have been an ABC affiliate for 3 years. We are on the air from 6:30 a.m. to 12:00 midnight. we are a 250 watt local and are using a Gates transmitter, the tower is a 175 ft Blaw-Knox and is located on top of the Citizens Bank Building, the top of the tower is 300 ft from the ground.

I hope that this serves better than the card you received before, we got quite a kick out of that, and I am not a bit surprised that the people that was running it at that time would do that, they had very poor idea of consideration for anyone else.

I am very glad to hear that you have been receiving us for such a long period and would like to have a report at anytime. According to your letter you certainly have a lot of verifications and here's hoping that you receive many many more.

Thanks a lot for the report, and if you are ever in Anderson we would be glad to have you stop in and see us.

Sincerely yours,

Carl Phlegar Jr.
