Mr. Ernest R. Cooper  
438 East 21<sup>st</sup> Street  
Brooklyn 26, N. Y.

Dear Mr. Cooper:

Your report of reception of our station on September 12th was greatly appreciated. We have had a report from Milwaukee, Wisconsin, but yours is the farthest distance report we have received so far.

We are having difficulty getting a frequency check due to interference from a Mexican station, 150 KW, so no point in listening for it as yet.

Also, we would appreciate any additional verifications from you.

Sincerely,

R. B. Parmentier  
Chief Engineer

RBP/ab
