TELL CITY, INDIANA

SERVING EQUALLY KENTUCKY AND INDIANA

Jan. 16, 1948

Ernest R. Cooper  
438 East 21st St.  
Brooklyn, N.Y.

Dear Ernest,

Thanks for the Dx report. we were glad to hear that our little "coffee pot" was boiling hard enough to land a signal in the home of the Dodgers. we found your reception log in all except my home town, which doesn't happen to be Little Rock, correct. My Home is- like it or not- Indianapolis.

What's the matter? Don't you like WITH? we have had several reports from Pa. and Conn. and everyone seems to be thumbs-down on the boys over in Baltimore. Maybe we can arrange to give them a little interference some other time.

The equipment here is mostly Gates. The transmitter, freq. control unit, and modulation monitor are all Gates. The freq. monitor is a Doolittle and the tower is a 150 ft. Windcharger.

we have a two studio setup, with a control room that doubles in brass by also housing the transmitter. The building sits on top of a high hill and from where I sit, at this typewriter, I can look out through four large plate glass windows and see for several miles out over the countryside.

Thanks again for the report. Hoping to hear from you again sometime, I remain,

yours truly,

Tom Mantia  
H
