Dear Mr Cooper;

In reference to you reception report of May 24,
I checked our log and we did one of our weekly frequency
checks with the Commercial Radio Equipment Co. of Kansas
City ,Mo. from 1:00-1:15 A.M. CST Friday May 21.

As you noted we are using only 100 watts however we
have hopes of getting 250.

We are using 180 foot Wind-Charger tower, and Gates
equipment throughout, including transmitter, studio equipment
remote equipment, etc.

Thanking you for your report,

Sincerely yours,
