Ernest R. Cooper
National Radio Club
138 East 21 St.
Brooklyn 26, N. Y.

Dear Sir:

This is to verify your reception report of K I N D on March 28, 1950. Your report was correct and indeed gratifying. Our equipment is General Electric throughout with a power of 250 watts, daytime only.

We do not maintain any early morning frequency check schedule, as we are close enough to make our checks during the regular broadcast day. Our present hours of operation are from 6:30 AM to 7:00 PM CST.

Hope you receive our signals again soon.

Sincerely,

Ernest I. Kettner
