Dear Mr. Cooper;

This will verify your reception of W A K Y on Sunday 3/1/59, at that time we were on our Day time pattern with 5KW.

We are unable at this time to send you a coverage Map as they are in for a reprint, however there is a slite null at 49° of true north.

The programming was a Seeburg 200 with the announcements recorded on 45RPM records to insert in the seeburg.

In July of 1958 THE McLenden Corp. of Dallas Texas took over W G R C and changed the call to W A K Y.

W A K Y operates 24 hrs per Day except Sunday mid-night to 5:30am Monday, and we use the Seeburg the other nights, Mid night to 5:30am.

Thanks very much for the report.

Yours very truly,

W.J. Morrison
Chief Engr.
