Re: WCPM-560 K/s

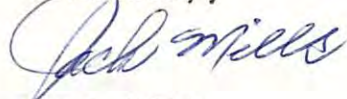

Gentlemen:

I am in receipt of your letter of January 16, 1981 wherein you ascertain information as to the origin of WCPM and if it is the same that operated on 560 k/s.

Please be advised that the call letter of WCPM was located in Middlesboro, Kentucky prior to 1952 and did operated on 560 k/s. However, when WCPM at Cumberland, Kentucky went on the air in 1952 the call letters were transferred here and the station at Middlesboro ask for a change in call letters and was granted. At that time I presume that the stock holders were of the same.

Hope this has been of some benefit or at least answered your question.

Sincerely,

Jack Mills
