Dear Mr. Cooper:

Sorry for the delay. This verifies your reception of WLBN in one of its initial test periods. We were on the air just briefly on the Morning of November 3, and your report checks with our log.

Lebanon has a population of 4,500. We began regular broadcasting last Wednesday at 1:00pm. We are operating from 5:30 am until 4:30pm at present, with a total staff of three people. That explains the delay.

We are not directional, and do not, at this time plan any early freq checks.

We greatly appreciate your letter, and it is a pleasure to verify your reception of WLBN.

Sincerely, *C. H. Hulse*
