Brooklyn 26, N.Y.

Dear Sir:

According to my records your original letter was answered, but I am glad to reply a second time.

The log you submitted showing reception of our signals November 28, 1946 is correct and please let this letter serve as verification of same.

Thank you for your interest and information. As Chief Engineer I am always interested in reports for our signals.

Yours truly,

Theodore E. Jones,
Chief Engineer
