Dear Sir:

Thank you for your good report on our April 25<sup>th</sup>, 1949 broadcast. I am indeed happy to verify it for you.

It is quite odd that you were unable to hear us on the special broadcast you mentioned. But, such is radio.

On this last broadcast, you may be interested to know, the tone was a 1000 cycle one; the lady announcer was my wife.

Wishing you every success I remain,  
yours truly,

Marques Vicoy, chief eng.
