Dear Ernest:

First I would like to express my regret that this station was so long in answering your first letter. Though the engineer who was employed here when you received us is no longer here, I have checked the transmitter log for that date and we were, in fact, testing on that date. We operate at 1 KW daytime on 1380. I suppose we're doing fairly well down here if we make Brooklyn. I've enclosed a coverage map for your further information.

Thanks for your report, sorry for the delay.

Yours truly,
