Dear Listener:

This will verify your reception of Radio Station KLFY on the date indicated in your report.*

Many thanks for your interest in our broadcast.

Cordially yours,

Bill Bland

William H. Bland, Jr.
Chief Engineer
Radio Station KLFY
P. O. Box 367
Lafayette, Louisiana

WHB:mb

*September 10, 1951

P. S. Mr. Bland, our chief, is on vacation and I will have him answer your questions about our directional system when he returns. I do know, however that on the frequency check which you heard, we were 1000 watts non-directional.

Our studios, by the way, are located "in the home of Evangeline Maid Bread" -- the Huval Baking Company.

Frequency checks are on the air every night 12:00 - 12:30 AM CST, until our frequency monitor is returned from the manufacturer.
