Radio Station WBG5
Slidell, Louisiana

Attention of Mr. Bryant Woodham, Chief Engineer

Good Morning, Mr. Woodham!

Back on October 4th, 1964, I heard your station on the air with Hurricane Hilda warnings, and I sent in a report at that time, but it must have gone astray, for I never did receive my WBG5 letter verifying my reception. I note that several other National Radio Club members have gotten their replies, and they mentioned your name as the sender of those letters, so I am sending you this letter, in the hope that you will check my report of reception at that time, and if it is correct, I would very much appreciate that verification letter.

Does WBG5 have an early-morning frequency check schedule, and if so, when do these checks take place? Would you happen to have available, one of your WBG5 coverage maps, please?

Another of my hobbies is picture postcard collecting, and I do not have any from Slidell, and if you should happen to have one around - used are OK - I surely would appreciate receiving one.

Return postage is again enclosed, Mr. Woodham, and thanks so much for your time and trouble. I do hope to hear WBG5 again soon, but certainly not on a Hurricane Watch! I hope the storm is not only a thing of the past, but that it is completely wiped out of memory by now.

The best of success to you and WBG5 for 1965 - and on, and on!

Yours DXingly

Ernest R. Cooper
