

Nov. 6, 1995

Dear Ernest,

As the unofficial QSL manager of Walden Radio, I'd like to thank you for the letter. Although there were a few errors with names and route numbers, it's obvious you were listening to us. DXing in a location surrounded by salt water is, needless to say, paradise for the MW/LF buff. It's no surprise you have as many verifications as you have.

I am enclosing my card and a bumper sticker to add to your collection.

As for your receiver - I'm fascinated by it. I've restored four antique radios - from a 1929 Stromberg Carbon and a 1935 Silvertone console, to a 1961 Heathkit - over the past couple of years. It's utterly fascinating, but I suspect you've been operating yours all along and never had to "restore" a quality communications receiver.

Hope the daily folk music on WOMR is still going strong.

I have memberships in the NRC and WTFDA myself.

Good luck!

Sincerely,

Jeffrey Gill

Jeff Gill

Music Director

P.S. The Spanish station under us is WBIS in Bristol, CT. Often, they bother us at night as close in as Lexington.
