Dear Mr. Cooper:

Thanks for your second letter and detailed report of reception on March 9th which I am happy to verify. It is interesting to know that we can be copied under WMTR in New York.

In answer to your question, full time operation on 1250 would require a directional pattern. However, we do have an application in for C.P. to go to 1 KW.

We have no WARE stationery as yet, so I hope this will suffice.

Very truly yours,

RADIO STATION WARE
