July 7th, 1968

Ernest R. Cooper
438 E. 21st St.
Brooklyn, N.Y. 11226

Dear Ernie:

Thanks very much for the detailed and accurate report of reception of our special test on the morning of April 22, 1968. Please accept this as verification of your reception of WCAS on that date on 740 kc. with 250 watts between 3:31:50 and 4:25:15. We carried as far as Tampa, Florida, and Warrensburg, Missouri, not to mention Dubuque, Iowa, so it was a pretty good test with a tiny transmitter.

I am enclosing a "coverage map" and an explanation of the WCAS programming concept, which may be of interest to you. I am sorry for the long delay in answering the many fine reception reports ... but I'm sure you are at least somewhat aware of how busy I've been.

Many thanks again for the report ... and I hope you'll be able to hear us again.

Sincere best regards,

John A. Callarman
News Manager.
