apt. 7
Provincetown, Mass. 02657

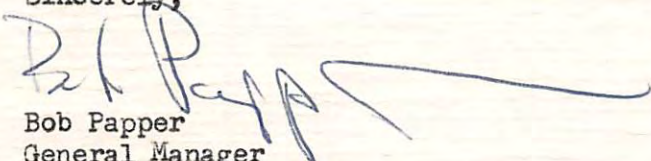

Dear Mr. Cooper:

The details you sent on WKXA (AM) make verification easy -- and I'm pleased that you liked the programming. I'm also not at all surprised by the interference with WOTW. In cleaning out some old files, I noticed the original engineering maps show studies made of interference between the two stations going back to '54-'55.

In answer to your question on monitoring late at night, we use a contract engineer (rather than full time) and I can never be certain when he'll be coming in.

Coverage maps have been at the printers for some time, but I'll send you one when they're done.

Sincerely,

Bob Papper
General Manager
