RUMFORD, MAINEMELVIN L. STONE
President

April 29, 1957

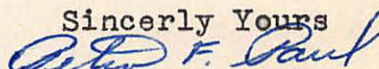

Mr. Ernest Cooper

Well Ernie I'll answer your copying of W R U M on April 22nd. I beleive from all reports that it was a very bad night reception wise as all reports show heavy static and fast fading. Thanks for your very interesting report and I hope that the next one will be a lot better for all of you fellows.

Now to answer a few of your questions. I beleive that our frequency checks will be made at 01:24 E.D.S.T. It will be on the first monday of June as scheduled right now but anything can happen and usually does. We are not directional and there is a very good reason for going daytime on 790. The old station burned to the ground. the only thing left standing was the antenna.

Well Ernie thanks for your report on the reception of W R U M and I hope that some day if you are in Maine you will stop in and see us here.

Sincerly Yours

Peter F. Paul
Chief Engineer
