Dear Mr. Cooper;

I am pleased to verify your reception of W-DOG on January 28, 1963. Thanks for your letter letting us know that we can get a signal over there.

This station changed its call letters about seven years ago but I don't know why.

The population of Marine City is 4800 and the city got its name from the fact that this city at one time was the ship building center for the entire blue water area.

But when the companies started to build the ships of steel the city said no, because of the smoke. There is no industry here now. We do not have a regular check on our transmission but we would be happy to co-operate with the National Radio Club if the opportunity ever arises again.

Thanks Again
