WWCK-FM/WLQB-AM  
Dec 02, 1981

Dear ERNEST R. COOPER ,,

GREETINGS FROM FLINT, MICHIGAN!

I would like to thank you for your letter and for your interest in our radio station WLQB. We are currently undergoing a few changes here and things have been quite busy lately or I would have answered your letters much earlier. Sorry for the delay.

As you know I'm writing to confirm your report of reception of WLQB--1570 AM. The test tones were run on the early morning of January 19, 1981 at approx 1:57 a.m. to 2:33 a.m. Tones were also broadcasted at approx 4:00 to 4:15 a.m. I'm really amazed at the wide response of distant listeners that night and the distance our signal traveled. Our transmitter is an RCA 1946 BTA--1M operating at 750 Watts Antenna Input Power. Our tower is 202 ft non-directional.

We are currently rebuilding our studios and hoping someday soon to update our transmitter and audio processing.

As for me, I'm 21 years old, been in radio for about 4 years and this is my first gig as an engineer. I started as an announcer and did a lot in production work also. Somehow I got into engineering and currently I'd like to learn more about Satellite Systems and multi-track recording.

WLQB  1570

Enclosed are some goodies from our stations. I hope you find them enjoyable. Hang on to the WLQB stickers, they'll be collectors items soon as we are going to change our call letters and format sometime this month if all goes well. Also I will be doing a proof on WLQB very soon. [ As soon as all the new equipment is in and working properly. This should be around the last week in December, and probably on the last Monday of that month. I'll try to do it about midnight or shortly thereafter.

Well, THANK-YOU once again for your continued interest and please accept my best wishes for a happy and healthy Holiday Season.

*MERRY CHRISTMAS ERNEST!  
I'll TRY MY BEST TO  
DO THAT PROOF ON  
Dec 28, 1981 - THANK-YOU  
& SORRY FOR THE DELAY.  
TAKE CARE,  
Mike*

Best Wishes,  
*Mike Stram* 12-02-81
