

MARSHALL, MINNESOTA

Greetings, DXer,

Your letter of Dec. 2, 1946 was greatly appreciated. We are proud and happy to know we have reached you. KMHL operates at 1400 Kc. with 250 watts. We have a Raytheon RT 250 Xmitter using high level modulation with a pair of 810's for output. Our antenna is a 200 foot, self-supporting vertical radiator. Our studio equipment consists of a Raytheon RC11 console and Rek-O-Kut turntables with Cobra tone arms.

Thanks again for writing.

Yours truly,

A handwritten signature in cursive script that reads "Corwin Ost".

Corwin Ost,
Chief Engineer

Am especially happy to add KMHL
to your record & very sorry we don't
have QSL cards, but I'm having
some made & will send you one
as soon as possible.
