

RADIO **KALM** STATION

THAYER, MISSOURI

Jan. 12, 1955

Ernest R. Cooper  
National Radio Club  
458 East 21st St.  
Brooklyn 26, N. Y.

Dear Sir:

This is to verify as correct, your reception report of our test program, Nov. 7, 1954. 2:30 to 3:00 am CST.

Thank you for your fine report.

Population of Thayer is just under 2000. However, with the outlying homes, and the adjacent town of Mammoth Spring, Ark., there must be a population of about 5000 within a radius to 5 miles from here.

KALM started broadcasting with test programs at 1100 Dec. 11, 1953. Daylight Hours. Frequency checks are third Tues. of each month, 5:45 to 6:00 am CST. Sorry, but as yet we haven't had any coverage maps made up. It is roughly a 100 Mile radius from here, where signal is still of listening strength.

Respectfully,

Sam Beatty  
Engineer
