Dear Sir:

Thanks for the report of Reception. The Transmitter and Associated Equipment are Gates. The tower is 200 feet and series fed, Power is 250 watts with high level modulation.

Population of Maryville is 7000. Due to our unique location we are able to reach four states Kansas, Nebraska, Iowa, Missouri. Our coverage is approximately that shown on our letter head. As to the origin of the cityname, I don't know.

Yours truly,
