Brooklyn 26, New York.

Dear Sir:

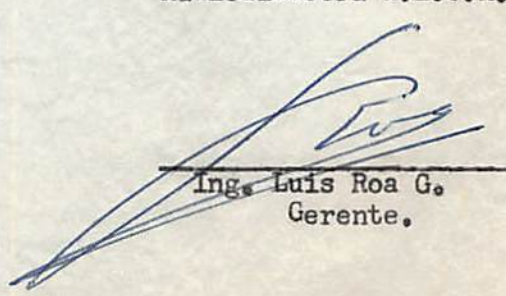

Thank you very much for your kind letter dated October 30, We were indeed glad to hear from you as we feel that X.E.O.K. does well to reach as far as New York with only 1 Kilowatt.

The data as stated by you is all correct in every respect. -- X.E.O.K. is the "YOUNGEST" of the radio stations in this city, for we -- are now working our sixth year and after having struggled through the -- first five year we are now well on our way to success.

We are enclosing a coverage map as well as a folder of views of the City Of Monterrey, called the "Industrial Capital of Mexico". -- The city is quite beautiful, we think, and has a population of about -- 500,000. We sincerely hope that some day we may have the privilege to -- greet you personally, in the meantime we wish to remain,

Yours Truly

Radiodifusora X.E.O.K.
