Ernest P. Cooper

438 East 21st St

Brooklyn 26, N. Y.

Dear Mr. Cooper:

I thank you for your accurate report of reception of station WCHL on July 1, 1953. I am very happy to verify your reception of our equipment test on that date.

Dear Mr. Cooper,

I'm very sorry that you have not received verification of your reception report before this.

There was considerable confusion about the policy of QSL at WCHL before I started to work there. I have tried to maintain a rapid 100% QSL policy and to catch up on all old reports. I remember well your original report and I believe the first verification I wrote was for you but it must have been misplaced.

I am forced to write these longhand because it's the only way I can be sure that they will get off.

At the present WCHL does not maintain a scheduled test period because I am a full time student at NC State and am really too busy.

W. C. H. W.
VILLAGE PRODUCE & MEAT COMPANY
1000 W. 10th St. DUBUQUE IOWA

Our regular hours of operation are daytime only. Thus the hours of operation change each ~~month~~ month (they can be found in FCC standards).

At present we have no coverage maps for distribution but I hope to have some ready this summer.

If I can be of any help so far as BCL DXers are concerned please let me know. This summer I will conduct a number of early morning tests when I have more time.

Hoping to hear from you again,

BEST 73

Fritz Thurston
