Dear Friend:

Your letter received yesterday. I was under the impression that all letters of "reception" had been answered and acknowledged. I usually leave this to the Chief Engineer. I am sorry you haven't gotten action ere now.

Last night I checked logs with the engineer and I can verify your report. IT IS CORRECT. TIME., NOVEMBER 25, 1948.

WHED makes frequency checks at one A.M. on twenty fifth day of each month.

I believe that WHED was still broadcasting on 100 watts on November 25, 1948. In fact I'm sure without looking up same.

Again I'm sorry that you were neglected and you can rest assured your verifications will be acknowledged immediately in the future.

Thanking you for your interest, I remain.

Cordially yours.,
Beaufort Broadcasting Co., Inc.
