Mr. Cooper,

This letter is to verify our programming as heard and reported by you for the late afternoon of October 19, 1946 from 4:45 to 5:45 PM EST. Your report checks closely with my records.

Thanks very much for the fb report OM. I've had enough now to almost plot a signal strength pattern for the U.S. - hi!

That sounds like a fb listening post you have there -- and judging from your record, you must have spent a good deal of time and effort at your hobby. I've had a good many reports from members of N.R.C. - I wonder what kind of setup it is, sometimes.

Good Dx in the future,
 es 73's
