Hello Lefty...

Thanks for listening. Your report was only one of about 15 that reported interference from WMRF, WCOL and WLOG. Too bad.. 4 o'clock in the morning is a wee bit early to get nothing. I had a report from a S/Sgt. in South Dakato, which is pretty good considering all the interference. He didn't say whether or not he belonged to the club. Here's his address just in case. S/Sgt. T.E. Smith, 14044893, 316 E. 15th Street, Sioux Falls, S.D. All the other reports were from members, but some of them were fellows that had never listened before so maybe I accomplished a little at that.

This will verify your report... like all the others ... scanty but sufficient. I do hope the situation improves by next month. Keep me posted on WCOL... I'll try to write them in the near future, Maybe the chief could help me write them.

I promised to tell you some thing about our engineering staff, but it's nearly 2:30 and a bit late for 19 year olds to be up and alone... thats the mud they sling at me anyways. I will tell you this much.... the chief is an old maid and will never see 40 again, the other girl is 20 and by far the prettiest on the staff, I just turned 19 the last of September. I'm very interested in radio and can think of nothing more interesting or pleasanter... except getting married in about two years and raising five little boys.

Pardon the typing and mistakes.... but it's due to a very sleepy girl who hates to go to bed. Goodnite...

Truly yours,

Betty
