Mr. Ernest R. Cooper  
National Radio Club  
438 East 21<sup>st</sup> Street  
Carrier route 56  
Brooklyn, N.Y. 11226

Dear Mr. Cooper:

It is a pleasure to verify your reception report of WPGF-AM on 19 February 1973.. I have had other reports from New York but never from some one using a ferrite antenna. As for using code we have no problem with the monitoring service as I call him by phone. Direct dial is very low in cost at night. Van Nostrand Radio Engineering Service in Decatur, Ga. makes the measurement. It is done every third Monday morning between 12:20 and 12:35am. Several other stations in this area do this also and perhaps you can log them also, WMFD, Wilmington is on at 12:00 to 12:15 on Thursday, the fourth in the month I think, for this test they use their day pattern with a very strong lobe of power northward on 630KHZ. Wklm is on the third thursday on 980KHz with 5Kw power. Lots of luck

Sincerely

A handwritten signature in blue ink that reads 'Leslie A. Everhart'. The signature is written in a cursive style with a large, sweeping 'L' and 'E'.
