Dear Ernest,

In response to your request, we would be glad to confirm that YES! You were monitoring WRTG-1000 AM in Garner. This station is co-owned with WRTP-1530 AM.

The stations are simulcast and identified as WRTP on the whole. Ofcourse, once an hour 1000 AM is identified as WRTG. That might be where some of your confusion is.

One thing you could do for us offer a suggestion. What type of "consumer" attena could we tell our listeners to get that would improve the reception of WRTP. Or any other tips you might have.

In Christ's service,

  
David G. Moore, Jr.  
Station Manager - WRTP
