1570 KILOCYCLES 1000 WATTS
26 WEST PENNSYLVANIA AVENUE
TOWSON, MARYLAND

Oct. 24, 1955

Dear Mr. Cooper

Thank you very much for your DX report of Oct 19. We were very glad to hear from you as we were from other members of your club, who wrote to us. First ~~allow~~ me to verify your report for it is correct, and second, any suggestions for doing away with XERF, for all those who wrote us told us of the same interference.

As yet we are not ~~on~~ the air, waiting only for the bosses ok. We will probably start operations officialy on Oct 27. We are a 1000 watt daytimer, and will feature music and news.

I don't know too much about Towson, being I just came ~~here~~ myself. Lived out on Long Island for a while, but ~~xxxx~~ spent most of my life in a place called Brownsville, just off Pitkin Ave. But Towson is a suburb of Baltimore located about 5 miles north of the city on the York Rd. (route 111). The population, and this is a guess, is about 15,000.

Sorry we can't send you a coverage map for those that we had, have already been distributed to prospective sponsors. And before I forget, our freq checks will be taken during the working day, by a local outfit, called Huttons.

Well thanks again for your letter and slogan, and for your best wishes too.

Radio actively yours

Sam Hecker
